Bird City Century II Development Foundation Announces Major Step Forward in Housing Initiative

It's with great excitement that Bird City Century II Development Foundation announces the building of a new home in Bird City. The group broke ground on a new home at 214 W 4th Street on October 24, 2022.

Housing has been a significant concern in this rural community over the last few years. As homes hit the market, they are sold quickly and often sight unseen. While it's wonderful to have people joining and growing our community, the task of solving for adequate housing for these families and individuals has been problematic.

Bird City Century II has taken an active role in helping to resolve the lack of adequate, moderate-income housing in Bird City. After two years of planning, they were finally able to start construction on a new home this week led by Paxton Building Service.

The foundation plans to put this house on the market to help prospective buyers in their search for a home in Bird City. More details about the new home being built will be released in the near future.
